

## BLOQUES DE SILICONA

  
**REGISTRO SANITARIO EN TRAMITE**  
Producto NO DISPONIBLE en Colombia

Our **Silicone Carving Blocks** can be used for a variety of purposes but are most commonly used for custom fabrication of implants. Like all of our implants, Hanson Medical Silicone Carving Blocks are manufactured using long term implant grade raw materials. We offer our blocks in two sizes and a variety of durometers. If one of our standard sizes or shapes isn't appropriate for your needs, we would be happy to manufacture a custom design as per your specifications.

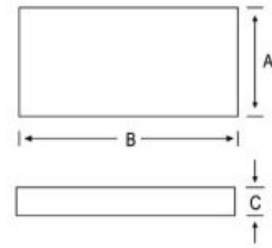

- » Available in Firm, Medium and Soft Durometers
- » Long Term Implantable
- » Available in Clear, White and Fleshtone
- » Ideal for custom fabrication of implants
- » Non-Sterile
- » Packaged Individually
